

February 21, 1973

SPEAKER: The chair recognizes Senator Maresch, then Senator Kime.

SENATOR MARESH: Mr. President, members of the Legislature, I did not wish to speak to oppose this bill but since Senator Mahoney has made charges about being anti-union and against industry in Nebraska, I would like to bring out that this is the reason, perhaps, why this bill was killed because testimony provided at the hearing said that the reason industry locates in Nebraska is because we have...we do not have Agency shop. So, I would also like to point out to Senator Mahoney that my LB 53 is a bill to help the rural area to clean up the messy highways that we have. I'm sure that Senator Skarda will agree with this. Last fall, he came to hunt in my...near to my home town and he saw the mess that the roads are in. Tin cans and bottles all over the place. And I'm trying to solve this problem of litter and it is not only myself that is trying to do this. Lincoln Senator Fowler, also, has a bill to stop the litter and so I don't know that Senator Mahoney's charges that I'm trying to do away with industry in Nebraska is valid. Thank you.

SPEAKER: Senator Kime.

(End of Belt #8)
